Petition for Rule Making  
FM Channel 254A  
Mineral Springs, Arkansas  
August 22, 2003

**Attachment A**

Request to Reclassify  
Station KURB(FM), Little Rock, Arkansas  
Pursuant to MM Docket 98-93

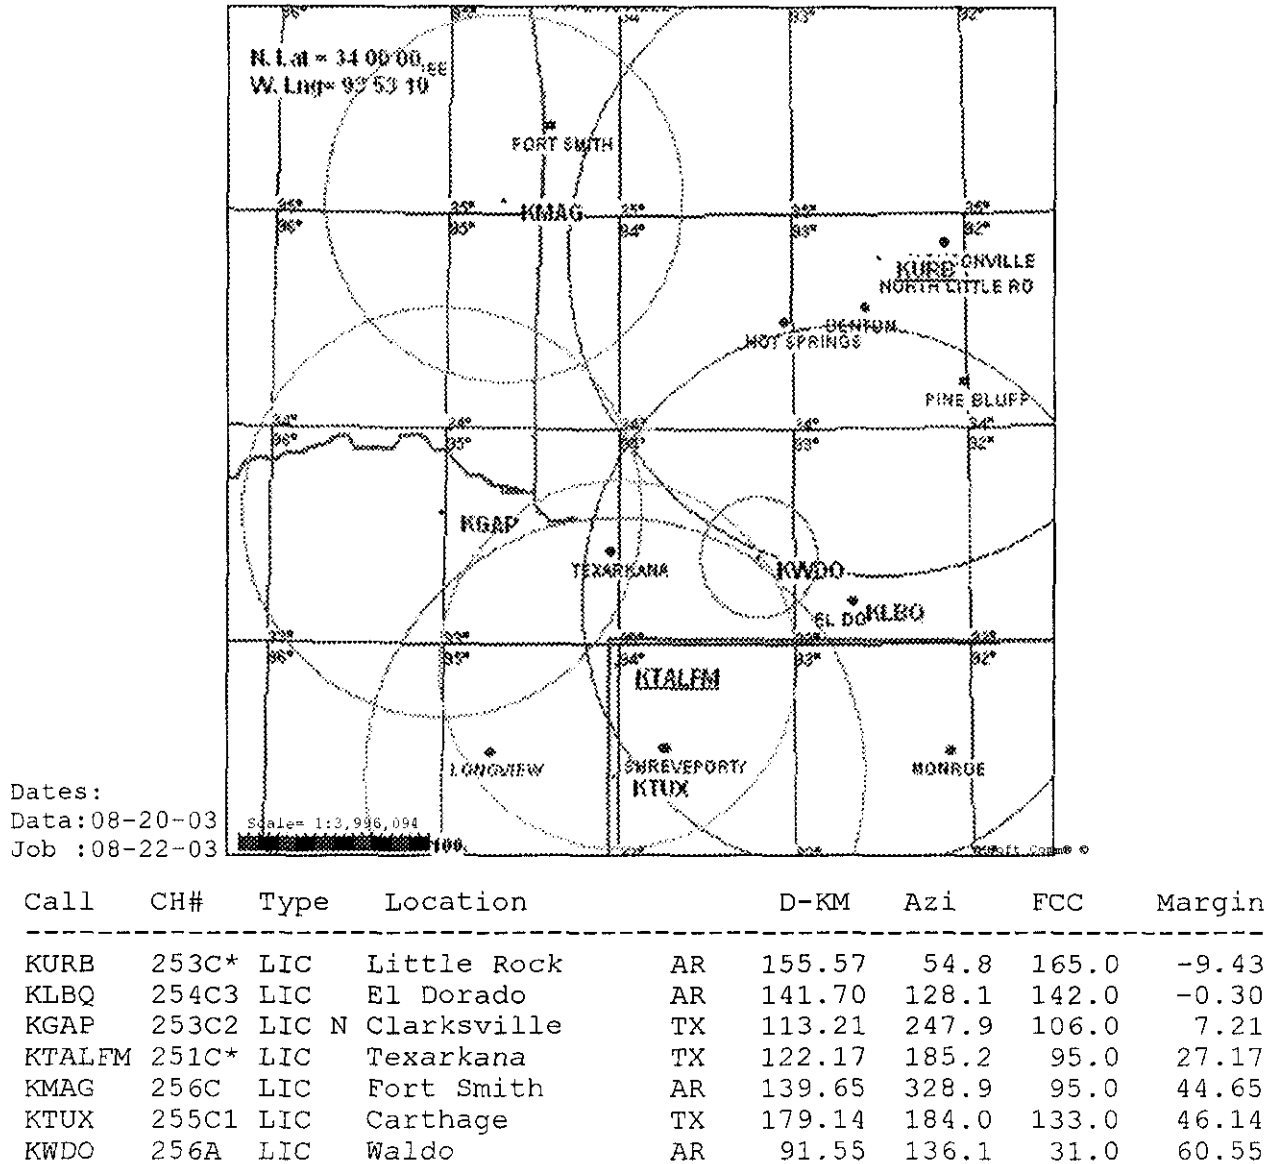

Radio Station KURB(FM), Little Rock, Arkansas is licensed to Citadel Broadcasting Company, City Center West, Suite 400, 7201 W. Lake Mead Blvd, Las Vegas, NV 89128, (Facility ID 19559), FCC File No. BLH-19880727KA. The facility operates with a power of 100 kilowatts with center of radiation 392 meters height above average terrain. The above captioned Docket 98-93 provides the mechanism to automatically downgrade a Class C facility to Class C0 when a demand is made for the spectrum, as is the case here. Charles Crawford respectfully requests that the license of Radio Station KURB(FM) be modified to specify operation on FM Channel 253C0 instead of on FM Channel 253C in accordance with the above Docket which provides for such downgrades when a demand for the unused spectrum is made, as is the case here.

Charles Crawford, the proponent of Channel 254A at Mineral Springs, Arkansas, in accordance with the above Docket, formally requests that the Commission reclassify Radio Station KURB(FM) as a Class C0 facility. Charles Crawford certifies that no alternative channel is available for the service he proposes at Mineral Springs, Arkansas as is proposed in the Petition for Rule Making. A copy of this Petition for Rule Making is being served on Citadel Broadcasting Company as is required in the above Docket.

  
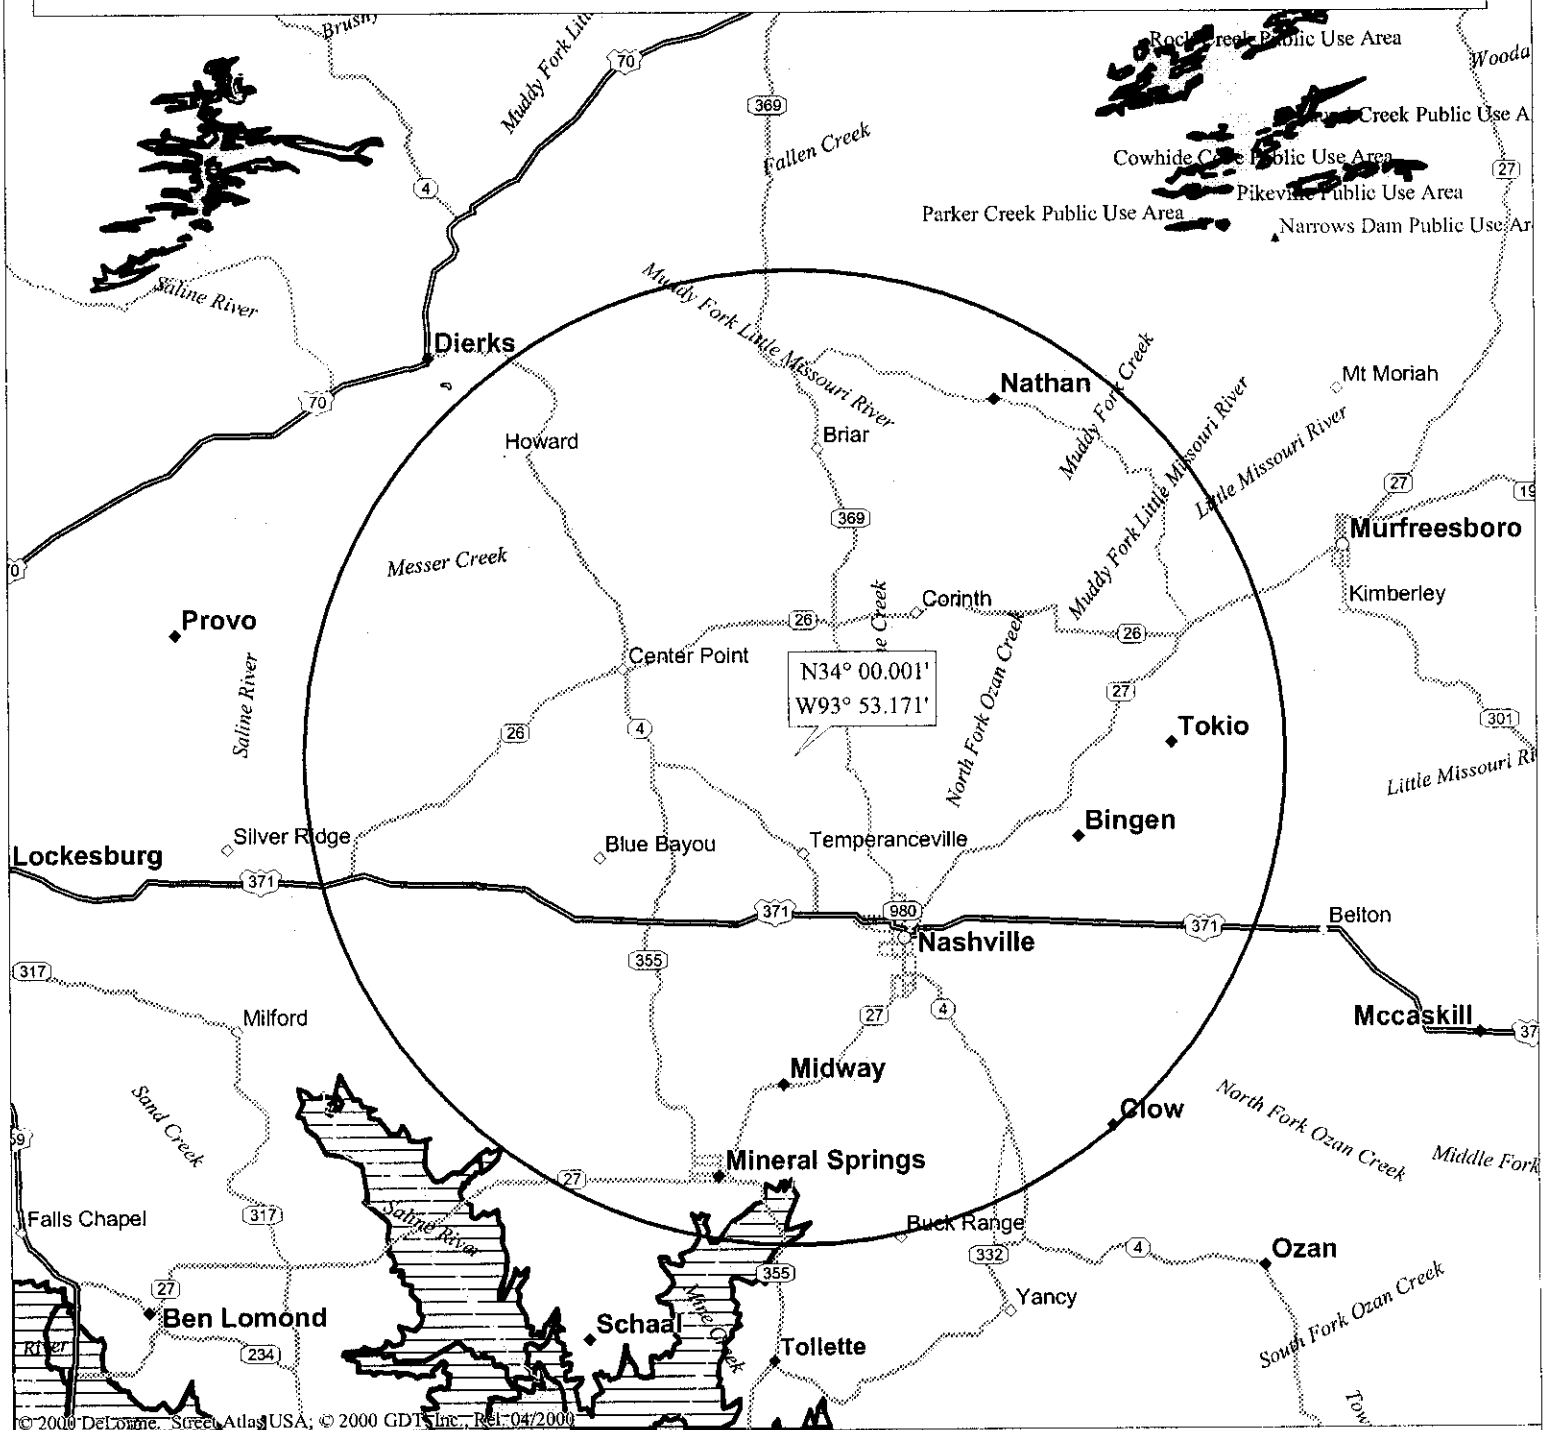

Charles Crawford
